

Shared assets distribution fibre in duct offering

We can assist with your fibre in duct projects in qualified distribution underground ducts

Are you a business, land use authority, utility, city or municipality looking to install your fibre in BC Hydro underground infrastructure?

Is this offer for you?

We can help

- Communication companies that want to install telecom fibre
- Government agencies, municipalities or utilities that want to install fibre

If you are looking to install your fibre, our distribution underground ducts can provide a solution for your needs.

The offer

SOME GUIDELINES APPLY:

- Customers will enter into a Master Service Agreement with BC Hydro to participate in the Distribution Fibre in Duct Installation program.
- Customers will submit requests in accordance with relevant BC Hydro guidelines and standards.
- Customers are responsible for obtaining all necessary municipal permits associated with their installation.

Why Choose BC Hydro?

Location is everything

Wherever people go in our province, we are likely already there. Make use of underground ducts in urban regions when overhead structures are not an option.

Building your Network with us

Leverage BC Hydro assets to build your network

UNDERSTANDING YOUR NEEDS

We will work with you to identify available underground ducts which may meet your needs and assign a dedicated team to manage your project from start to finish.

PREPARING FOR YOUR INSTALLATION

We will partner with you to make our assets ready for your installations.

INSTALLING YOUR FIBRE

Once you have all applicable permits in place, you can hire BC Hydro approved contractors to work with you to safely and efficiently install your fibre.
